

Product Datasheet

Product Name	CITED1 Human Recombinant
Cata No	CB500916
Source	<i>Escherichia Coli.</i>
Synonyms	Cbp/p300-interacting transactivator 1, Melanocyte-specific protein 1, CITED1, MSG1.

Description

CITED1 (Cbp/p300-Interacting Transactivator 1) / Melanocyte-specific protein 1 is highly expressed in most of the papillary thyroid carcinoma. It is not expressed in normal tissues except normal breast epithelium. Study shows that this protein functions as a selective coactivator for estrogen-dependent transcription.

CITED1 Human Recombinant full length protein expressed in E.coli, shows a 47 kDa band on SDS-PAGE.

The CITED1 is purified by proprietary chromatographic techniques.

Physical Appearance

Sterile Filtered clear solution.

Purity

Greater than 90% as determined by SDS-PAGE.

Formulation

CITED1 at 0.1mg/ml in 50mM Tris-acetate, pH7.5, 20% glycerol and 1mM EDTA.

Stability

Store vial at -20°C to -80°C. When stored at the recommended temperature, this protein is stable for 12 months.

Please prevent freeze-thaw cycles.

Applications

- ELISA
- Inhibition Assays
- Western Blotting
